

Latvian Safe Driving

Statistics show that Latvian drivers have one of the highest accident records in the world. Please assist us in establishing new expectations for our drivers. If you are not comfortable with a driver's behavior, please show one or more of these phrases to the driver.

If they still do not respond to drive within your expectations ask the driver to stop. Write down the license number, color of the vehicle date and time and submit a report.

More information; report a complaint and a copy of this form may be found at Internet site: www.rigataxi.info
